

THE BAR MENU

As much as we love food, the H&A guys looking after the bar have the same passion and enthusiasm about the bar. The team are always looking to source great local Yorkshire ales from breweries on our doorstep, a lot of which is offered on draught. But we can also personalise the bar offering to offer craft ales, beers, or our favourite crisp Italian lagers.

There is also a great range of spirits and mixers plus wines and fizz but we are proud to be able to offer a fantastic range of cocktails where you can even personalise your own and make it specific to you and your wedding.

The below is a typical snap shot of our stock selection but not fully exclusive to these - there many other options;
